

10.3.7 Lab: Disable Network Service

Candidate: Richard Habib ()

Time Spent: 00:17

Score: 0%

Task Summary

Required Actions and Questions

✗ Q1: Which computers have port 3389 open?

Your answer: ~~Exec~~

Correct answer: Office2

✗ Q2: Which computers have port 5900 open?

Your answer: ~~Office1~~

Correct answer: ITAdmin

✗ Disable and stop services on port 3389 on Office2 [Show Details](#)

✗ Disable and stop services on port 5900 on ITAdmin [Show Details](#)

Explanation

While completing this lab, use the following information:

- Ports to scan:
 - 3389 - Remote Desktop Services (TermServices)
 - 5900 - VNC Server (vncserver)
- Computer identification:

IP Address	Computer Name
192.168.0.30	Exec
192.168.0.31	ITAdmin
192.168.0.32	Gst-Lap
192.168.0.33	Office1
192.168.0.34	Office2
192.168.0.45	Support

192.168.0.46	IT-Laptop
--------------	-----------

Complete this lab as follows:

1. Using Zenmap, scan the network for open remote access ports.
 - a. From the Favorites bar, select **Zenmap**.
 - b. Maximize the window for better viewing.
 - c. In the Command field, use **nmap -p [port number] 192.168.0.0/24** to scan the port.
 - d. Select **Scan** (or press Enter) to scan the subnet for a given service.
 - e. Using the table in the scenario, identify the computer(s) with the open port using the IP address found.
 - f. From the top right, select **Questions**.
 - g. Answer Question 1.
 - h. Repeat steps 1c-1e and then answer Question 2.
2. For computers that have a remote access service port open, disable and then stop the applicable service from running.
 - a. From the top left, select **Floor 1 Overview**.
 - b. Select the **computer** with the remote access service port open. If needed, minimize or move the Lab Questions dialog.
 - c. Right-click **Start** and select **Computer Management**.
 - d. From the left pane, expand and select **Services and Applications > Services**.
 - e. Maximize the window for better viewing.
 - f. Double-click the **service** (Remote Desktop Services or VNC Server) that needs to be stopped.
 - g. Using the *Startup type* drop-down menu, select **Disabled**.
 - h. Under *Service status*, select **Stop**.
 - i. Select **OK**.
 - j. Repeat step 2a-2i.
 - k. From the top right, select **Questions**.

You would also want to remove or uninstall these services.
